

SALES DESCRIPTION

Variable speed motor block + universal head.
Equipped with “brushless” technology.

FEATURES AND BENEFITS

Equipped with “brushless” technology: powerful and efficient motors.

- ✓ Maximum efficiency: maintain the torque throughout the speed range.
- ✓ Exclusive “force control system”: guarantee of a uniform and high quality cut.
- ✓ Lightweight and compact design: they weigh less, they occupy less space.
- ✓ Improved air/water-tightness since no ventilation is required.
- ✓ They generate less noise: improved workplace environment.

A perfect cut

- ✓ High precision adjustments to obtain a uniform and excellent-quality cut.
- ✓ It can be fitted with a wide range of discs and grids of the highest cutting quality. Combining these accessories together to obtain more than 70 different types of cuts and grating grades.
- ✓ Exclusive “Force Control System” to optimise and standardise the cutting of each product: acoustic warning when the motor exceeds the pre-established force.

Built to last

- ✓ Made from stainless steel and food-grade materials of the highest quality: stainless steel motor block and food-grade aluminium head.

Maximum comfort for the user

- ✓ Ergonomic design: product sliced in one single movement.
- ✓ Lateral product output: requires less space on the worktop and guides the product, avoiding splashes.
- ✓ Advanced control panel that is very intuitive to use and offers all the information at a glance.

Maintenance, safety, hygiene

- ✓ Lever and lid easily removable for cleaning purposes.
- ✓ Combination of safety systems: head, cover, power switch.
- ✓ Appliance certified by NSF International (regulations on hygiene, cleaning and materials suitable for contact with foods).
- ✓ 100% tested.

INCLUDES

- ✓ Variable speed motor block.
- ✓ Universal head.
